

TRANSFORMING HOSPITAL INFORMATION MANAGEMENT SYSTEM

WITH INTUITIVE INTERFACE AND SIMPLIFIED WORKFLOW FOR
HASSLE-FREE EXPERIENCE

Secure by Design

Informative Dashboards

Analytical MIS Reports

Workflow driven Lab Process

Benefits

- i** Increased Efficiency and Productivity
- i** Minimal Learning Curve
- i** Reduced Operational Challenges
- i** Smooth Onboarding Process

ABOUT INTHERS

We provide comprehensive Healthcare Management software solutions for the healthcare industry, specializing in Hospital Information Management System (HIMS) and Laboratory Information Management System (LIMS). Our cloud-based solutions empower healthcare organizations with the latest technology to streamline hospital operations, improve data accuracy, and enhance patient care in laboratories and hospitals.

OUR PRODUCTS

- i** Hospital Information Management System (INTHERS HIMS)
- i** Laboratory Information Management System (INTHERS LIMS)
- i** Pharmacy and Inventory Management (INTHERS PHARMACY)

WHY INTHERS

Revolutionize your healthcare operations!

- i** **Pioneering Technology:** Harness the power of cutting-edge innovation, specifically designed for the healthcare industry.
- i** **Intuitive Design:** Enjoy effortless navigation with our user-friendly software, requiring minimal training for seamless adoption.
- i** **Dedicated Support:** Rely on our 24/7 customer support team to ensure uninterrupted operations and peace of mind.
- i** **Tailored Solutions:** Benefit from customizable solutions carefully crafted to address your unique needs and goals.

Mission

To provide healthcare professionals and institutions with efficient software solution that empowersthem to deliver accurate and reliable patient care

Vision

To be the leading provider of efficient software solution with unwavering commitment to excellence, innovation, and customer satisfaction

INTHES HIMMS

Our cloud-based HIMMS solution is a robust platform that seamlessly integrates various hospital functions and departments including patient management, appointment scheduling, electronic medical records (EMR), billing, inventory management, and more.

- i** Streamline patient management and care pathways
- i** Efficient appointment scheduling and management
- i** Centralized and secure EMR (Medical Records Management)
- i** Optimize pharmacy workflows and inventory
- i** Enhance lab management and result tracking
- i** Efficiently manage medical supplies and inventory
- i** Simplify billing, invoicing, and payment processing
- i** Advanced reporting and analytics for informed decision-making

INTHES LIMS

Designed specifically for laboratory settings, our cloud-based end-to-end LIMS solution optimizes your day-to-day laboratory operations encompassing patient registration sample tracking, data management, quality control, and reporting processes with visibility of report status at various stages.

- i** Track and manage samples with precision and accuracy
- i** Efficient data entry, validation, and verification
- i** Ensure quality control, assurance, and regulatory adherence
- i** Maintain compliance with relevant laws, regulations, and standards
- i** Generate detailed analytical reports to informed decision-making

Benefits of Using INTHES Products

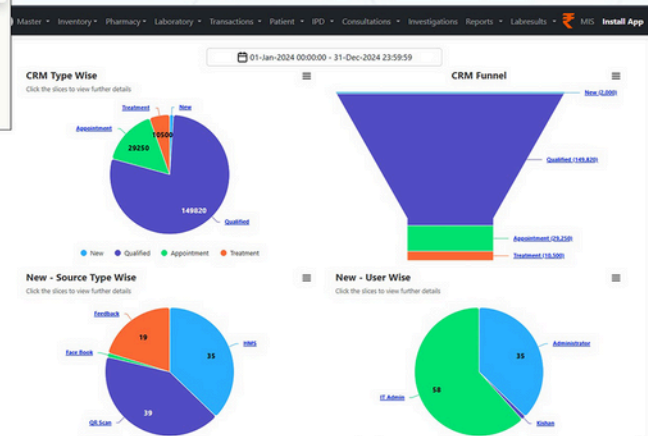

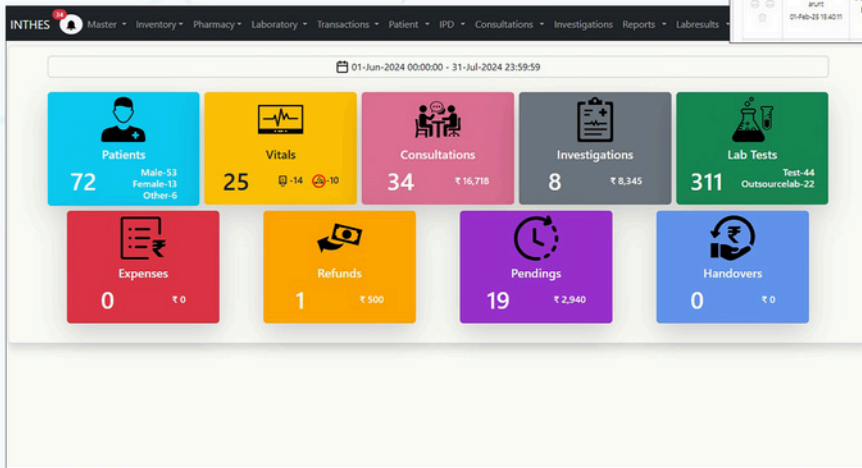

- **Boost Productivity:** Maximize efficiency with defined workflows
- **Ensure Data Integrity:** Accurate and reliable data for informed decision-making
- **Stay Compliant:** Adhere to industry standards and regulations with ease
- **Simplify Lab Workflows:** Streamline processes for doctors and staff members
- **Elevate Patient Care:** Deliver exceptional care with improved workflows and data accuracy
- **Optimize Resources:** Manage resources effectively to reduce costs and improve outcomes
- **Accurate Billing:** Timely and precise billing for improved revenue cycle management
- **Operational Excellence:** Achieve enhanced efficiency, productivity, and quality
